Quick Painless Way

To Remove Hairy Growths

(Help to Beauty) Here is a simple, unfailing way to rid the skin of objectionable hairs. With some powdered delatone and water make enough pasts to cover the hairy surface, apply and in about 2 minutes rub off, wash the skin and every trace of hair has vanished. This is quite harmiess, but to avoid disappointment be sure to get the delatone in an original package.

USES FOR GREEN TOMATOES. Let us take warning from our ex-perience of last year and not let Jack Frost find us with a quantity of garden truck on hand.
